About The Changing Workplace

Booking

Booking is an app enabling users to book what they need supporting their work day

The app supports agile workplaces - book space wherever it is and whenever users need it to create flexibility and movement in facilities

App and Building Users communicate utilization trends – the when, where, what and for how long – back to CRE Teams and planners

Full deployment only requires QR/ NFC codes, a smartphone and the app

Book Spaces & Assets

INCLUDING ...

DESKS

LOCKERS

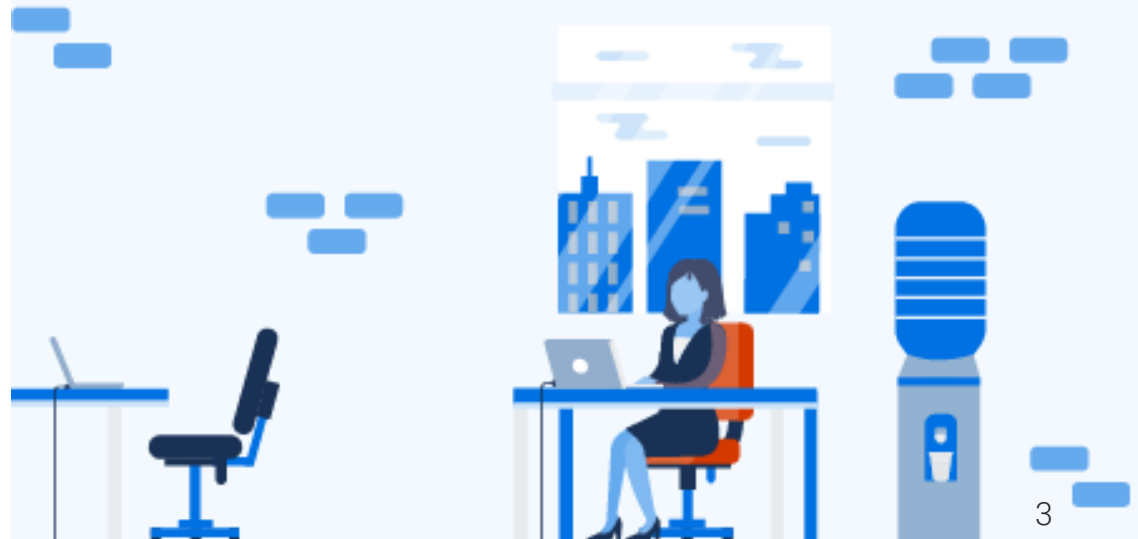

ROOMS

(i.e. meeting, conference, etc...)

PARKING

Benefits

- CRE Users can book what they need to move through their daily workflow
- Bookings translate into the utilization narrative that outlines how your buildings are being used
- Simple, cost-effective deployment with the built environment through QR/ NFC codes, which can be assigned to different space types, work stations & assets
- Accessible design
- Compatible across desktop, mobile (Android and iOS) and kiosk

Features & Behavior

Features

CRE User Features:

- Booking dashboards
- Save favorite locations
- All-day booking or book for a block of time
- Booking viewer to understand where the user's booking is located
- Email integration
- Space represented through a list view and zoomable floor plans
- Wayfinding to find your way when on-site

CRE Team Features:

- Scalable infrastructure
- Reports on bookings made

BEHAVIOR

Make, edit and cancel space bookings

Reserve a single occupancy space or space for teams

Block/recurring booking capabilities

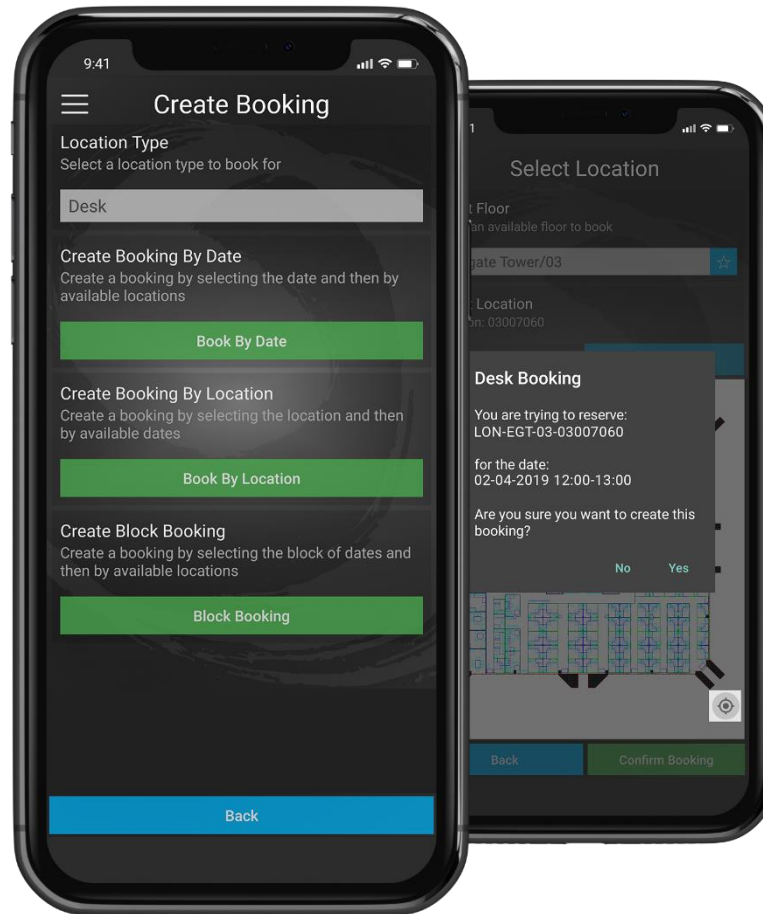

Making a booking turns the space from green to red - indicating a booking

Book in Two Steps

1

BOOK
WHAT YOU
WANT

2

CONFIRM
BOOKING

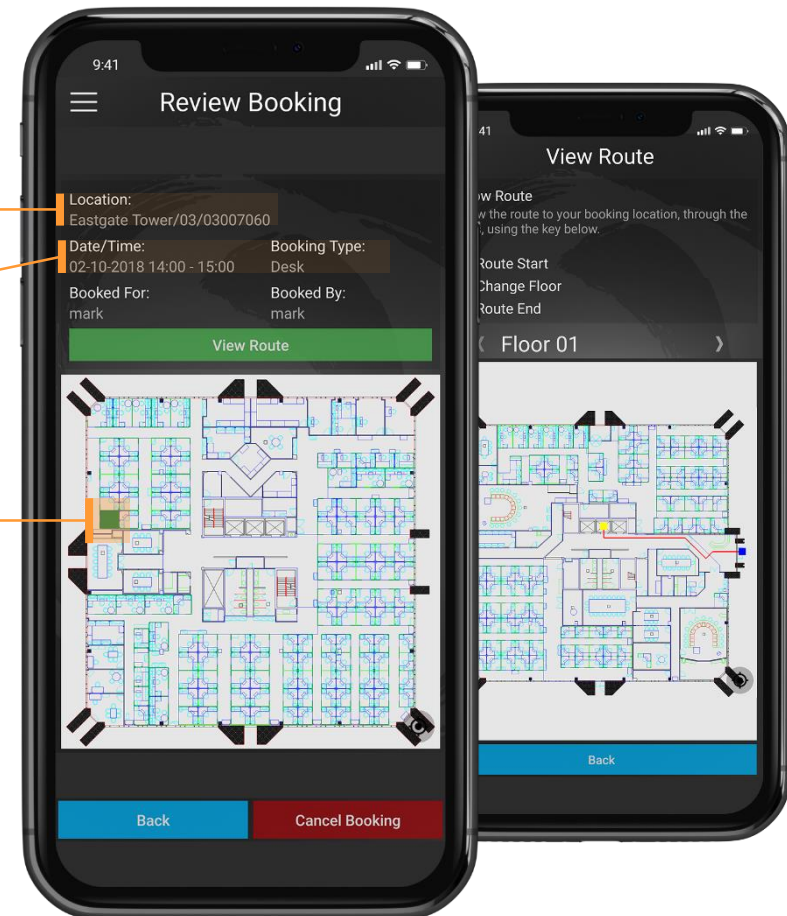

Wayfinding

Use Booking to help you navigate to your booking when on-site

Building, floor and space/asset ID tells you where you've booked

Tells you booking date & time and what space type/asset is booked
e.g. desk, locker, meeting room

Shows you where your booking is on the floor plan

Occupancy & Utilization Reports Based on Booking

Reports capture data on:

- Utilization trends (what, when, where and for how long)
- Costs:
 - To Business Groups
 - Cancelled/ unfulfilled bookings
- Churn

Report types:

- High-level dashboards
- Usage & chargeback billing
- Client defined KPI achievement
- Dynamically loading text bites
- Tabular graphs

Reporting metrics are client configurable

Because of the scope of CWP's reporting we'd recommend a demo

About The Changing Workplace

The Changing Workplace was founded in 2000 after developing our portfolio management platform, WebCoRE

WebCoRE's tools are used to capture and blend metrics outlining how facilities are being used compared to how they were planned

Data visibility and platform capabilities enable users to take affirmative action creating and enabling strategies aligning with expectations from users and governance

WebCoRE is used to manage over 200 million square feet with over 20k active users across 140 countries

Offices in America, Europe and partnerships in several strategic locations globally

£7.8_b
