About The Changing Workplace

Tasks

Tasks is a gateway for operational CRE Teams to request floor plan changes

Change requests are completed by our dedicated team of CAD and CAFM specialists within agreed SLAs

The simple request portal controls floor plan quality while keeping records current

Easily send work requests, then track and report on those tasks raised

| Task Status | Task Type | Task ID | Building Floor | Task Requester | Date Task Raised | Task Due Date | Date Task Completed | Task Description |

Benefits

- Maintain current floor plans where the team doesn't have the knowledge to make changes themselves or it's preferable to not allow your team to make changes
- Simple, streamlined process
- Drives accountability

Features

- Redline tool – outline changes required and detail request through annotation
- Simple to use requesting interface
- Backend controls drive SLA adherence

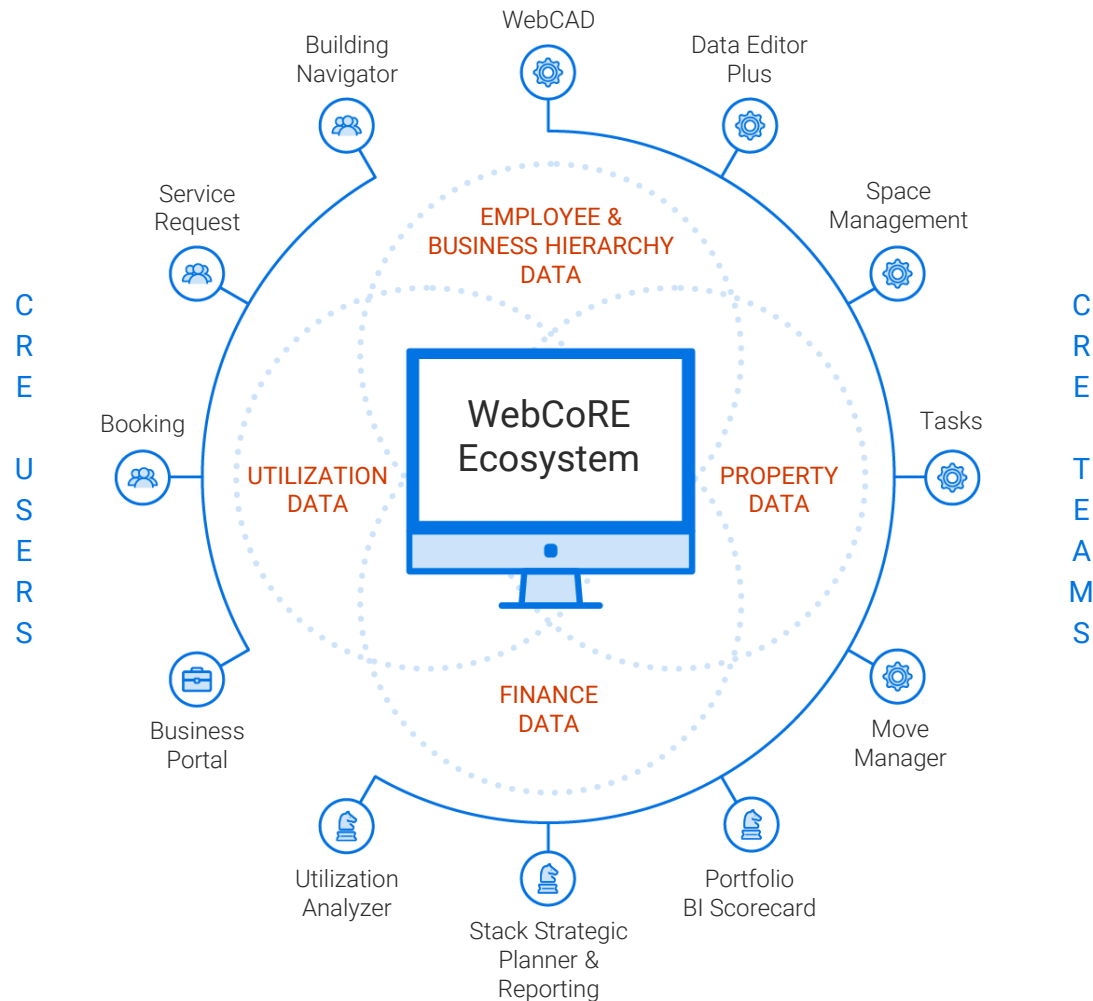

How Tasks Contributes to the Ecosystem

WebCoRE's Ecosystem creates a cross facility community and platform that increases communication, insight and data quality

The breath and depth of insight and capabilities drives CRE design and management in-line with both user expectations and strategic directives

Tasks is a portal for maintaining current space records

Having the visibility of the built environment enables both operational and strategic CRE Teams to move through their workflow accurately.

About The Changing Workplace

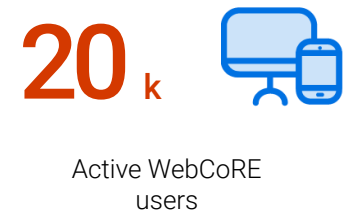

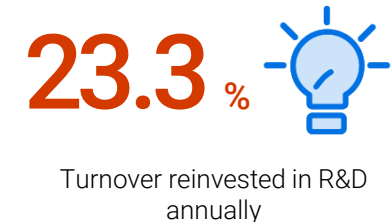

The Changing Workplace was founded in 2000 after developing our portfolio management platform, WebCoRE

WebCoRE's tools are used to capture and blend metrics outlining how facilities are being used compared to how they were planned

Data visibility and platform capabilities enable users to take affirmative action creating and enabling strategies aligning with expectations from users and governance

WebCoRE is used to manage over 200 million square feet with over 20k active users across 140 countries

Offices in America, Europe and partnerships in several strategic locations globally

Let us show you how easy accuracy is
